

TOTALCARE® AND TOTALCARE SpO₂RT® REPLACEMENT MATTRESS COVERS

Avoid the extra cost of replacing the complete mattress if the air bladders and foam of the original mattress are still acceptable — simply replace the worn-out cover with a new mattress cover from Curbell. These covers feature fluid-proof, waterproof welded seams, anti-microbial protection, and a waterfall flap over the zipper to keep just about anything from ruining your mattresses.

- ▶ Top cover:
 - Fade-resistant, polyurethane coated knit
 - Shear-resistant, breathable, bi-directional stretch urethane
 - Anti-microbial and hypo-allergenic fabric
 - BravoSilver Technology (SpO₂RT only) to help limit cross contamination (controlled release of silver ions resulting in a >99.9% reduction of bacteria)
- ▶ Tri-laminate vinyl bottom (TotalCare only) provides extra durable surface to withstand wear against bed frame
- ▶ Two-piece construction with full perimeter zipper for easier and faster replacement (can reduce replacement time by 50% or more), and easy maintenance (cleaning, changing bladders and hoses)
- ▶ Reinforced seams at high stress locations
- ▶ Bottom holes (with removable plugs) for air hoses and electronics (TotalCare: 11 holes, TotalCare SpO₂RT: 14 holes (classic pulmonary surface))
- ▶ Fully sealed cover prevents fluid ingress
- ▶ Easy to clean, stain-resistant, and durable
- ▶ Patented zipper-flap design to protect the mattress core
- ▶ Added fire retardants (meets CAL 117 fire rating)
- ▶ Five year warranty
- ▶ Also available: kits, foam topper, moisture/vapor barrier, fire barrier

Specially sized reinforced pneumatics exit ports (includes removable plugs)

Waterproof welded seams to help prevent cross contamination and fluid ingress

TotalCare

9257	36" x 84"	Urethane Cover, full four-side zipper	\$226.03
