A New Way of Thinking

When we started designing the Gen4 pillow speaker line, we wanted it to not only be a new platform for the future, but a new way of thinking. Using 50 years of experience designing and manufacturing the most popular pillow speakers in the world as our guide, we started from the ground up, combining the best features of our previous pillow speakers, suggestions from customers, and new materials and techniques to make Gen4 a step ahead of anything else in the nurse call industry today.

Patient Satisfaction

- Buttons are easy to find and press.
- Streamlined and lightweight, like home remote controls.
- Clean, clear sound.

Infection Control

- Proprietary design reduces the potential risk of infectious fluids or solids settling into the unit where they could be passed from patient to patient.
- Smooth shape allows for quick and easy cleaning, and helps prevent contaminants from collecting on the unit.

Oxygen Safety

- UL Listed pillow speakers are tested with the nurse call system and verified for safe use in an oxygen-enriched atmosphere.
- Visit www.oxygensafe.com for more information

Regulatory Compliance

According to 21 CFR 890.3710, powered communication systems and their accessories are considered Class II medical devices. As such, Curbell manufactures our nurse call communication accessories in compliance with this regulation. The FDA regulates all products and manufacturers within this regulation. Curbell’s quality system complies with current Good Manufacturing Practices (cGMP) per 21 CFR 820 and is ISO 13485:2003 Medical Devices – Quality Management Systems certified.
Superior Sound
Clear, high quality sound increases patient satisfaction.

Flex and Strain Relief
Gen4’s long flex relief was designed for longer life and greater flexibility. The smooth design facilitates easy cleaning, and internal strain relief prevents damage to internal components.

Large Buttons
Gen4’s large buttons are recognizable at a glance and easy to press. The simplified layout makes contacting the Nurse and controlling TV functions simple.

User-Friendly Button Layout
Intuitive, standardized button positioning makes operation easy.

Microphone
The built-in microphone allows duplex audio.

Repairable
You can utilize Curbell’s repair service or choose to make basic repairs yourself.

Volume Control Options
All models come standard with digital volume controls, and are available with analog volume for situations where two pillow speakers need to control one TV.

Comfort-Grip Case
Gen4’s lightweight case was designed to mimic the comfort and familiarity of a home remote.

Optional Stereo Headphone Jack
Ideal for creating a quieter environment for patient rooms.

Easy-To-Clean Surfaces
The streamlined design facilitates quick and easy cleaning.

Fully Sealed Unit
The sealed design reduces the potential risk of infectious fluids or solids settling into the unit.

Auxiliary Functions
Three auxiliary nurse call functions are available on all models. Up to four* environmental auxiliaries are available on Enhanced models, and two environmental auxiliaries are available on Standard models.
